

Cristian Abrante

Data Engineer

Barcelona, Spain

✉ cristian@abrante.me 🏠 <https://cristianabrante.com> 🌐 CristianAbrante 📄 Cristian Abrante

Profile

Data Engineer with experience across big corporations (Unity Technologies) and startups, spanning both data engineering and analytics engineering. I build scalable data platforms end to end, from ingestion and orchestration to modeling and the semantic layer, and leverage AI-assisted development to deliver high-quality results.

Work Experience

Data Engineer

Barcelona, Catalonia, Spain

ALOHAS

March 2025 - Present

Built data capabilities in the company from scratch. As the first data hire, I started a modern data platform that centralized analytics across the company, all powered by AI.

Technologies: Airbyte · Dagster · dbt · BigQuery · Lightdash · OpenCode · Claude

Data Engineer

Helsinki, Finland

Foodello - Fiksuruoka.fi

October 2023 - February 2025

Data engineering role focused on building and maintaining data pipelines and infrastructure.

Technologies: dbt · Snowflake · Dagster · Terraform · GCP · Tableau

Software Engineer

Helsinki, Finland

Unity Technologies

September 2021 - October 2023

Software engineering role working with data engineering technologies and distributed systems.

Technologies: Scala · Apache Spark · Apache Druid · Airflow · dbt · Snowflake

Education

Aalto University

Grade: 4.27 / 5.0

Master of Science in Data Science & Digital Innovation

September 2020 - November 2022

Second year of master's studies organized by EIT Digital. Deepened knowledge of data science subjects and studied entrepreneurship topics.

Subjects: Machine Learning, Supervised methods · Methods for Data Mining · Reinforcement learning · Master's thesis

Universidad Politécnica de Madrid

Grade: 3.48 / 4.00

Master of Science in Data Science & Digital Innovation

September 2019 - June 2020

First year of master's program organized by EIT Digital. Gained strong foundation in data science and engineering while learning business and entrepreneurship concepts.

Subjects: Statistical data analysis · Data processes · Deep learning · Big Data

Awards

Extraordinary Award for Academic Performance in Bachelor's Degree

Universidad de La Laguna

Award obtained for exceptional academic performance in the Bachelor's degree in Computer Science at La Laguna University.

November 2019

Skills

AI Development

OpenCode, Claude Code, Agents, MCPs, Skills

Data Engineering

Apache Spark, Apache Druid, Dataproc, Dagster, Airflow

Analytics Engineering

BigQuery, Snowflake, dbt, SQL, semantic layer

Data Visualization

Lightdash, Looker

Cloud & Infrastructure

GCP, Terraform
